**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

The Marley Road Victorian House is a frame dwelling built in the Gothic style. It is two and a half storeys in height and three bays long by one deep. The house has been covered with aluminum siding. The original siding was wooden novelty siding. This structure has a gable roof with two dormers that are extensions of second storey windows. Across the facade is a one storey porch with turned posts. In the center of the porch roof is a one bay second storey porch that extends from the cornice of the roof of the house. The roof itself is covered with asphalt shingles. In each gable end there is some wooden timbers with finial that appear to brace the roof. Extending from the rear of the house is a two storey rear frame wing. It has an inside end chimney of brick and the exterior of this section has novelty siding. The house has a stone foundation and cellar.
